

## Specifications: Mastasorb absorbent medium

Appearance:	Shredded paper fibers
Odor:	Slight damp paper, if any
Boiling Point:	215° F
Vapor Density:	N/A
pH:	N/A
Flash Point:	N/A
DOT Shipping Class:	55
Shipping Weight:	27bs
Specific Gravity:	N/A
Solubility:	N/A
Coverage Rate:	N/A
Reactivity:	Stable
HMS Rating:	0-0-0
Shelf Life:	None
DOT Shipping Name:	Not DOT Regulated

Mastabsorb is an excellent absorbent medium used to soak up residual mastic remover and liquefied mastic to aid in clean-up procedures. Each bale absorbs 210 lbs of liquid (or 26 gallons). It is made from shredded, recycled paper and weighs approximately 28 lbs. It is non-toxic.

### Directions:

1. Read and understand safety data sheet when using this product.
2. Use Mastasorb to absorb remaining mastic remover and liquefied mastic. Do not use on surfaces with a temperature of 180°F (82 degrees Celcius) or higher to avoid risk of combustion. Product contains fire retardants, but use standard procedures as dictated by given situation.
3. Dispose of wastes in accordance to all federal, state and local laws.
